## PROFESSIONAL SNAPSHOT

Creative Frontend Developer with 5 years' experience crafting performant, accessible user interfaces and component libraries for scalable apps. Specialised in React, UI optimization, and conversion-focused design. Strong collaborator with designers and backend teams to deliver delightful user experiences.

## HIGHLIGHT PROJECTS & IMPACT

Customer Portal Redesign (Dibatech) — Lead Frontend Developer | June 2020 – Present

- Led a redesign of the customer-facing portal: rebuilt UI with component-driven React architecture, progressive enhancement, and improved accessibility.
- Achieved a 22% increase in successful self-service transactions and a 35% reduction in support calls for billing issues.
- Implemented lazy-loading, code-splitting, and critical CSS improvements — decreased First Contentful Paint by 28% on average.

Design System & Component Library (Dibatech) — Owner

- Built a reusable React component library (buttons, forms, data tables) with Storybook documentation and automated visual regression tests. Reduced UI code duplication by 60% and sped up new feature development.

Checkout Performance Optimisation — (Contract with Dibatech Payment Team)

- Improved checkout flow reliability; introduced optimistic UI patterns and robust retry/back-off for network failures, dropping checkout error rate by ~50%.

## CORE SKILLS & TOOLS

React, JSX, Component Design, Responsive Layouts, Accessibility (WCAG basics), JavaScript (ES6+), CSS3/SASS, Storybook, Webpack, Browser performance tooling, Lighthouse, Git, Jest, Playwright

## PROFESSIONAL EXPERIENCE (concise, impact-focused)

Dibatech — Senior Frontend Developer

Lagos, Nigeria | June 2020 – Present

- Built modular frontend applications that integrated with backend APIs and payment services. Authored performance and accessibility standards used across the company.
- Partnered with product and analytics to run A/B tests on UI changes; measured and iterated based on conversion and engagement metrics.

#### PixelWorks Studio — UI Developer

Lagos, Nigeria | Jan 2018 – May 2020

- Developed pixel-perfect marketing pages, landing pages, and admin UIs; collaborated closely with designers and marketers to meet conversion goals.

#### EDUCATION & CERTIFICATIONS

HND Computer Science — Yaba College of Technology (2016)

Certs & Training: Frontend Performance Optimization workshop; Accessible Web Interfaces (self-study and applied)

#### ADDITIONAL CONTRIBUTIONS

- Speaker at local meetup on “Practical Frontend Performance” (2023).
- Mentored junior frontend devs and interns; ran code reviews and pair programming sessions.
