PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of experience building fast, accessible, and responsive user interfaces. Skilled in React, JavaScript, TypeScript, and modern frontend tooling. Known for writing clean, maintainable code and collaborating with product and design teams. Focused on delivering smooth user experiences and high-quality interfaces.

CORE SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks: React, Next.js, Redux Toolkit

UI/Styling: Tailwind CSS, Sass, Styled Components

Tools: Git, GitHub, Figma, VS Code

Testing: Jest, React Testing Library

Build & Deployment: Vite, Webpack, Netlify, Vercel

Soft Skills: Communication, Attention to Detail, Problem-Solving

WORK EXPERIENCE

Dibatech — Frontend Developer

April 2024 – Present | Lagos, Nigeria

- Built responsive UI components with React and reusable design patterns.
- Improved performance through code-splitting and asset optimization.
- Collaborated with backend engineers to integrate REST APIs and GraphQL endpoints.
- Implemented accessibility improvements based on WCAG guidelines.

CodeBase Systems — Frontend Developer

March 2022 – March 2024 | Lagos, Nigeria

- Developed dashboards and client-facing interfaces using React and Tailwind CSS.
- Translated Figma designs into clean, reusable components.
- Managed application state using Redux Toolkit.
- Contributed documentation and worked in Agile sprints.

CloudNet Labs — Frontend Intern

June 2021 – February 2022 | Remote

- Assisted in UI updates, layout fixes, and minor feature additions.
- Gained experience in component structure and code reviews.
- Collaborated with senior developers on task-based assignments.

SELECTED PROJECTS

1. E-Commerce Interface (React + Tailwind)

Developed product listing pages, search filters, and cart interactions while improving responsiveness and accessibility.

2. Task Manager Web App (React + Node API)

Built a simple dashboard UI with authentication pages, task filters, and responsive layouts.

3. Portfolio Website (Next.js)

Designed and deployed a clean, SEO-optimized portfolio highlighting personal projects and case studies.

EDUCATION

B.Sc. Computer Science

University of Lagos, Nigeria

CERTIFICATIONS

- Frontend Development Certification — Udemy
- JavaScript Algorithms & Data Structures — freeCodeCamp
- UI/UX Foundations — Coursera

ADDITIONAL INFORMATION

- Interested in performance optimization and design systems
- Open to remote and hybrid roles
